

Morning Drop off Procedures

There are several concerns as it pertains to the morning drop off procedures for the students here at Webb MS. In an attempt to make the drop off smoother and less congested we have added cones to help direct the traffic but drivers are not adhering to the cones or the arrows in front of the school on the pavement. Below are pictures which will explain the process of how to maneuver in the drop off area. Below are pictures of what the parking lot looks like and how it is marked off.

Above picture shows the split using the cones for the four lanes of traffic.

Above picture shows all four lanes which should be utilized. Two lanes for each direction of incoming traffic.

The picture above shows the main entrance into the parking lot off of Spring Creek Dr. If you enter this way you have two options, you can go to the right or the left of the marquee. Please do not stop at the main entrance and drop your child off, this holds up traffic. If you continue in the direction where the large arrow is pointing in the picture then you need to drive all the way up to the cross walk and drop your child off there. This is for safety issues so they will not cut in front of any cars. Do not let your child out prior to getting to the crosswalk. Once you proceed past the cones it will be two lanes available. Please utilize both lanes as these two lanes are designated for cars using that entrance. Do not cut to the far right once you pass the cones, please use the two lanes closest to Spring Creek Dr.

If you enter the way the arrow is pointing on the picture above then you will continue around the parking lot and you can drop your child off once you round the parking lot and are next to the school. Do not drop your child off in the middle of the parking lot because this will create a safety hazard. You will not be able to make a U-Turn and go back behind the school anymore. You will have to proceed forward and use the first two lanes next to the school. These two lanes should continuously move because your child was dropped off prior to getting in front of the school so please do not stop in front of the school except to allow students to cross the street.
